

MAKING THE DIFFERENCE
TO YOUR VISITOR EXPERIENCE

PRODAP PRODUCT RANGE

PROFESSIONAL AUDIOVISUAL EQUIPMENT FOR INSTALLATION IN A RANGE OF RETAIL AND CULTURAL SITUATIONS. COMPRISING AUTOMATION AND SHOW CONTROLLERS, VIDEO PLAYERS, AUDIO PLAYERS, LIGHTING CONTROL, MULTISCREEN AND MULTITRACK PLAYBACK, THE PRODAP RANGE PROVIDES A COMPLETE SOLUTION FOR MUSEUMS, EXHIBITIONS AND MUCH MORE.

Pilote

Solid State Show Controller
with Integrated Audio Player

The Pilote is our Show Controller. An embedded system comprising control of devices via Ethernet, RS232, IR, DMX, and direct contacts with an integrated stereo audio player, it offers stability and incredible ease of programming. The project creation software, Looping is available free of charge from our website.

MicroDAP

The small size audio player for
EXTREME applications

The MicroDAP is our flash audio player. It contains 512MB memory, with the memory chip soldered onto the circuit board for ultimate reliability. Triggering is by direct contacts or IR. One big advantage is the 220V AC power input in - no external PSU is necessary.

SpotDAP

Directional Audio Sound System

The SpotDAP is our directional loudspeaker, capable of focussing sound like a spotlight does with light in a theatre. The sound that is heard has no reverb, so gives the impression of coming directly from 5cm from the ear which is a great way of attracting attention. Ideal for digital signage

Video Players

Professional hardware video players

Our Video players cover a wide range of desired functionality, from simple "turn it on and it loops" to fully synchronisable multi-screen HD playback and touch screen control we have something to fit any situation.

MiniAMP

Digital Audio Amplifier
for Local or Distributed Diffusion

The MiniAMP is our intelligent digital audio amplifier. The entire signal path is digital giving excellent audio quality, and a surprising level of power for its size - 2x30W. 3-band EQ allows on-site optimisation of audio tone, and contact closures allow for remote volume control.

MultiDAP-IP

Ethernet-enabled Multi-channel
Audio Player

MultiDAP-IP is our new multi-channel audio player. It can play audio at better than CD quality, and can have up to 8 stereo channels per 1U of rack space. An unlimited number of players can be perfectly synchronised together. Control is via GPIO, RS232, or Ethernet.

More detailed information about all of our products and our PortaDAP audioguide range is available from our website at www.rsf-int.com along with downloadable brochures, relevant software, and technical specifications.

For any further questions we are only a friendly email or phone call away.
